

MSc. C.A. SEM-3 : 904-01 Application Development using UI

Assignments

05/08/2025

Assignment 1:

1. Explain the differences between Single-Page Applications (SPAs) and Multi-Page Applications (MPAs), focusing on their architecture and user experience.
2. What are **Props** and **State** in React? Show examples using both **Class-based** and **Function-based** components.

Assignment 2:

1. Explain how routing is implemented in a React application using react-router.
2. How can you build a mock REST API using json-server? Write steps to consume an API in a React application using the Fetch method

Assignment 3:

1. Describe the **Redux Architecture** with all its components: **Action**, **Reducer**, **Store**.
2. Define **Redux-Saga**. What are **Generators** in Redux-Saga?

Assignment 4:

1. Explain the process of building a full-stack application using GraphQL
2. Explain how to set up a testing environment using Jest for a React application.

NOTE:

1. Assignment – I & II must be written in one assignment book and Assignment – III & IV must be written in another assignment book.
2. Submission date will be given later and late Submission will not be accepted.
